

REMARKS

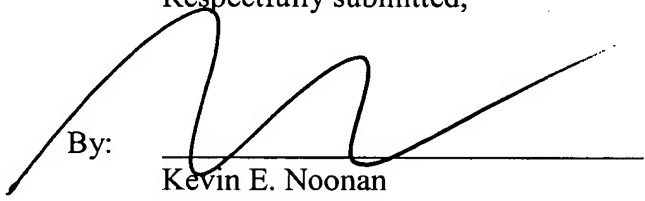

Applicants hereby submit this amendment as required by the Notice to File Missing Parts of Nonprovisional Application, to correct the inconsistency between the formal drawings and the Brief Description of the Drawings in the specification. This amendment is fully supported by the specification as filed; indeed, Example 2 describing the Figure refers explicitly to Figures 4A through 4J (at page 10, line 9 through page 21, line 11). Thus, this amendment is merely a correction of formal matters in the specification and does not contain additional information that may alter the subject matter of the application.

Prompt consideration and entry of this amendment prior to examination is respectfully requested.

Respectfully submitted,
